

Atifa today and the paramilitary wing of the Communist Party of Germany in 1933. They were the ones that paved the road for the nationalist Socialist Hitler party so that is what Q wanted you to see. You can not only see the similarity not only in the logo but the purpose and all that and then Q is showing you the fake news media he shows you a link here that shows you everything that's going on. In fact in France with the yellow vests and the police attacking them and Q showing you complete blackout by the fake news media. If they don't want you to see that the police are being turned against those that are against globalization and the pro nationalists and friends and thank you says ask yourself are they afraid of us Patriots? engaging in the same tactics yes they are and did the liberal laughs old guard engage and form organizations such as Atifa for the combat and silence any such deviation of the control narrative there you go under the name of fighting fascism right and thank you said Doody Anna through the actions of these Patriots abroad destroyed the fake news narrative regarding majority agree with the policies of the liberal uh yeah so the left and the media is afraid of this because it destroys their narrative to make people think that everyone is with aunt Eva and against nationalism so there it is and Q is showing you some other quotes maybe from the groups out there and Q say do you believe this moment and worldwide events are simply a coincidence they want you to bite it is what Q is saying that is what Q is showing you here she was asking you to look at the similarities between how they want to divide turn the police turn the people against the police like the anarchists have been doing for years right the underground truth movement and the left and a lot of these groups all funded by Sorrels think Occupy Wall Street turning the police and turning the people against the police is the same way that they turned Hollywood and everybody and the African-american community against Trump even though everybody loves Trump before he decided to run for president. Q is asking you to see the similarities and how they're turning the American people against ICE right Kamala Harris?
