Editor's Note: *With the [recent declaration from Egypt that designates the Muslim Brotherhood as a terrorist group](#), I thought this piece by our newest contributor Syd Wolf would be appropriate. His points of the goals of the Muslim Brotherhood and the Communists are invaluable for those who seek to preserve liberty in the United States. After you read this, you should be able to identify Communists and Islamists easily and be made more aware of what they have in store for the United States, should they be allowed to remain in power. As always, please feel free to share this information with your friends.*

Grandchildren and children wanted a compilation of their grandfather's and father's military and civilian life experiences - ships, battles fought during WWII, being stationed in Cuba during Castro revolution, travelling in European countries during terrorist attacks, diving for and disarming live torpedoes and so on. They could not believe and laughed when we told stories about what life was like growing up:

- sitting around the radio listening to variety and drama shows and Paul Harvey, black and white TV's (i.e. Tarzan, The Lone Ranger (no blood/guts), two/three party phone lines, no French kissing or bedroom scenes at the movies, cars were around \$1,200 new, used car around \$300;
- fast food chains were basically non-existent, cokes were .05/.10, had paper routes, milk was delivered to our home in bottles; gas was .12/gallon, no central heating and air (using dry ice for travel or ice blocks being delivered for fridge), no dishwashers, never locking homes or cars, x-ray machines for measuring shoe size;
- mouths washed out with soap for cursing, picking your own switch for spankings, paddles/rulers used in school for discipline, memorization of our times tables, saying "sir" or "ma'am"; receiving polio and small pox vaccines, divorce was unthinkable;
- taking baths in a huge tub in front of fireplace with heated water from the stove, working in the tobacco/cotton fields during the summer, riding on the tailgate of a pickup truck, sliding down hills on cardboard; and
- readability level of a 3rd grade textbook was equivalent to that of a 9th grader today; American history was taught on all grade levels, math was applicable job training, home economics classes, woodworking classes, accounting classes, and these were in the middle school as well as high school, those headed for college took appropriate classes while other went to trade school, Physical Education taught K-12, there were Bible Clubs, Music Clubs, etc.

Walking down memory lane brought back some other memories and books read through the years. Recalling one in particular was a publication written by [Dr. Cleon Skousen](#) in 1958 called "[The Naked Communist](#)."

Skousen held a law degree from George Washington University, served many years as FBI agent, was Chief of Police of Salt Lake City and national editor of leading police magazine "Law and Order."

Book was based on background and information obtained as an FBI agent where he was familiar with plans and goals of the Communist/Marxist or Socialist Party. Most of the goals subtly and quietly follows "Gramsci" model. Gramsci outlined a method for the Marxist, Communist, Socialist takeover of an advance capitalistic country, theorizing that in order to accomplish this it would be necessary to undermine the culture and morality – working from within via "progressivism - liberal ideology." These goals were established over a century ago.

Numerous others books and publications also came to mind. Among them were Congressional hearings on Communism/Socialism infiltrating our government since WWI through today and "tax-exempt" foundations influencing our foreign and domestic policies emphasizing the inherent dangers for the American people and our Republic.

Legislation passed and read through the years changed and prohibited singling out dissident groups and organizations deemed detrimental to National Security and our country. Today, Homeland Security and military has been busy purging manuals and documents regarding religious and highly political teachings of radical Islamists thus engendering political correctness and appealing to religious sensitivities; except nothing being done to protect Christian rights; privately and publicly.

There are 3 parts to this article; all meant for reflection. After reading, *you decide* if we are slowly losing our Republic, freedoms, liberties and our right to our own pursuit of happiness and personal choice. Once you have made a decision, ask yourself where you stand?

The following statement is applicable not only to Obamacare, but also national security. Do the research folks. The information is out there. Remember, Socialism and Communism are virtually synonymous.

"The American people will never knowingly adopt socialism, but under the name of liberalism, they will adopt every fragment of the socialist program, until one day America will be a socialist nation without ever knowing how it happened". – Norman Thomas Socialist Candidate for President of the United States 1944.

The following goals are from "[The Naked Communist](#):"

- Develop the illusion that total disarmament would be a demonstration of moral strength.
- Present homosexuality, degeneracy and promiscuity as "normal, natural, healthy."
- Permit free trade between all nations regardless of Socialist/Communist affiliation and regardless of whether or not items could be used for war.
- Infiltrate the churches and replace revealed religion with "social" religion. Discredit the Bible and emphasize the need for intellectual maturity which does not need a "religious crutch."
- Discredit the family as an institution. Encourage promiscuity and easy divorce.
- Extension of long-term loans to Russia and Soviet satellites.
- Provide US aid to all nations regardless of Socialist/Communist domination.
- Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press.
- Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.
- Eliminate prayer or any phase of religious expression in the schools on the ground that it violates the principle of "separation of church and state."

- Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.
- Discredit the American Founding Fathers. Present them as selfish aristocrats who had no concern for the "common man."
- Grant recognition of Red China and admission to the UN.
- Set up East and West Germany as separate states in spite of promises in 1955 to settle the German question by free elections under UN supervision.
- Prolong conferences to ban atomic tests because US has agreed to suspend tests as long as negotiations are in progress.
- Allow all Soviet satellites individual representation in the UN
- Promote the UN as the only hope for mankind. If its charter is rewritten, demand that it be set up as a one-world government with its own independent armed forces. Note number of Communist/Socialist countries existing today
- Resist any attempt to outlaw the Socialist/Communist Party.
- Do away with all loyalty oaths. Note attempts to delete God in many.
- Continue giving Russia access to the US Patent Office.
- Infiltrate one or both political parties in the United States.
- Use courts to weaken basic American institutions claiming activities violate civil rights.
- Get control of the schools, teachers' associations and textbooks. Use them as transmission belts for socialism and Communist propaganda. Soften the curriculum.
- Gain control of student newspapers.
- US acceptance of coexistence as the only alternative to atomic war.
- US willingness to capitulate in preference to engaging in atomic war.
- Use students to foment public protests against programs, individuals or organizations under Communist/Socialist attack. Chief of Police not being able to talk about "stop & frisk" Q&A.
- Infiltrate press, book-review assignments, editorial writing, and policymaking positions.
- Gain control of key positions in radio, TV, and motion pictures.
- Continue discrediting American culture by degrading all forms of artistic expression. "Eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms." Note all the weird shapes all over nation.
- Control art critics and directors of art museums. "Our plan is to promote ugliness, repulsive, meaningless art." Remember Christ in urine piece?
- Belittle all forms of American culture and discourage the teaching of American history on the ground that it was only a minor part of the "big picture."
- Support any socialist movement to give centralized control over any part of the culture-- education, social agencies, welfare programs, mental health clinics, health care, etc.
- Eliminate all laws or procedures which interfere with the operation of the Socialist/Communist apparatus.
- Eliminate the House Committee on Un-American Activities.
- Discredit and eventually dismantle the FBI.
- Infiltrate and gain control of more unions. Check backgrounds of leaders.
- Infiltrate and gain control of big business. Check backgrounds of founders.
- Transfer some of the powers of arrest from the police to social agencies. Treat all behavioral problems as psychiatric disorders which no one but psychiatrists can understand [or treat]. Check out "civilian" police force. See DHS on this.
- Dominate the psychiatric profession and use mental health laws as a means of gaining coercive

control over those who oppose Socialist/Communist goals.

- Emphasize the need to raise children away from the negative influence of parents. Attribute prejudices, mental blocks and retarding of children to suppressive influence of parents. "Need a village to raise children." Clinton
- Create the impression that violence and insurrection are legitimate aspects of the American tradition; that students and special-interest groups should rise up and use "united force" to solve economic, political or social problems.
- Overthrow all colonial governments before native populations are ready for self-government.
- Internationalize the Panama Canal. Carter gave Canal away.
- Repeal the Connally reservation so the US cannot prevent the World Court from seizing jurisdiction over domestic problems. Give the World Court jurisdiction over nations and individuals alike.

"[Rather](#) than focusing on various terrorist groups or organizations, the use of terror falls into a multiplicity of options available to progressively infiltrate, confront, and eventually establish Islamic domination over the West." Tactics and techniques are among the many recommendations made in *The Project*, drafted in 1982 when tensions and terrorist activities in the Middle East were still very nascent. *The Project* is extremely discerning for outlining the bulk of Islamist action, whether by "moderate" Islamist organizations or outright terror groups, over the past two decades. Investigate various Islamic organizations such as CAIR, ISNA, ICNA, Muslim Brotherhood in key agencies our government like DHS, DOJ, DOD. Research Socialist/Communist influence in Muslim countries during WWII. Does the following ring any bells or cause for concern?

- Networking and coordinating actions between likeminded Islamist organizations;
- Avoiding *open* alliances with known terrorist organizations and individuals to maintain the appearance of "moderation";
- Infiltrating and taking over existing Muslim organizations to realign them towards the Muslim Brotherhood's collective goals;
- Using deception to mask the intended goals of Islamist actions, as long as it doesn't conflict with *shari'a* law;
- Avoiding social conflicts with Westerners locally, nationally or globally, that might damage the long-term ability to expand the Islamist powerbase in the West or provoke a lash back against Muslims;
- Establishing financial networks to fund the work of conversion of the West, including the support of full-time administrators and workers;
- Conducting surveillance, obtaining data, and establishing collection and data storage capabilities;
- Putting into place a watchdog system for monitoring Western media to warn Muslims of "international plots fomented against them";
- Cultivating an Islamist intellectual community, including the establishment of think-tanks and advocacy groups, and publishing "academic" studies, to legitimize Islamist positions and to chronicle the history of Islamist movements;
- Developing a comprehensive 100-year plan to advance Islamist ideology throughout the world;
- Balancing international objectives with local flexibility;
- Building extensive *social networks of schools*, hospitals and charitable organizations dedicated to Islamist ideals so that contact with the movement for Muslims in the West is constant;
- Involving ideologically committed Muslims in democratically-elected institutions on all levels in the West, **including government**, NGOs, private organizations and **labor unions**;

- Instrumentally using existing Western institutions until they can be converted and put into service of Islam;
- Drafting Islamic constitutions, laws and policies for eventual implementation;
- Avoiding conflict within the Islamist movements on all levels, including the development of processes for conflict resolution;
- Instituting alliances with Western "progressive" organizations that share similar goals;
- Creating autonomous "security forces" to protect Muslims in the West;
- Inflaming violence and keeping Muslims living in the West "in a *jihad* frame of mind";
- Supporting *jihad* movements across the Muslim world through preaching, propaganda, personnel, funding, and technical and operational support;
- Making the Palestinian cause a global wedge issue for Muslims;
- Adopting the total liberation of Palestine from Israel and the creation of an Islamic state as a keystone in the plan for global Islamic domination;
- Instigating a constant campaign to incite hatred by Muslims against Jews and rejecting any discussions of conciliation or coexistence with them;
- Actively creating *jihad* terror cells within Palestine;
- Linking the terrorist activities in Palestine with the global terror movement;
- Collecting sufficient funds to indefinitely perpetuate and support jihad around the world;

Taqiyya, a form of religious [deception](#) in which one conceals the truth while promoting an agenda such as The Project. Think on all of the above. Again, do the research and then ask yourself this question: "Is our country under attack from within, through legislation to promote a socialistic, Islamic agenda and/or ideology?"
