Our organization's main function is fully investigating those in government. For our membership this is a hobby, a passion and a recreation. This is what we call, fun. I would like to congratulate you for landing on our radar screen.

Here's why;

Here is the supporting law;

As a public servant you are our employee and we find that you have stepped outside your scope of work we have authorized. Under the rule of law this notification is an opportunity for you to correct your behavior. As you can see in the supporting law above, as your employers this is what action(s) United States Citizens and citizens of The State of _(STATE)_ can be use for your removal. We highly recommend you make the best of this opportunity to reverse course on this matter.

Sincerely,
