Your legal name is the name that the government likes to use to attach your identity (set of fictitious characteristics) to it, allowing the government to identify you. It is important for you to know that your legal name is not the name given to you by your mother and father; instead, it is a name created by the government to make it easier for you to do business with its corporations. However, the government likes to use your legal name as a tool to control you, so it is wise to learn how to use your legal name wisely.

To be more specific, your legal name is a name of a corporation created under your given name. The government uses your legal name to attach you to a dead fictional character. This allows the government to identify you and do business with you. Because of this, if you want to successfully free yourself from its jurisdiction, you need to stop thinking that your legal name is who you are.

Most of us have been conditioned to think that our legal names are who we are. In reality, our legal names are not who we are because each of us is a living man or woman with a body made of flesh and blood. Names are not real people who are living and breathing but are symbols of things. In legal terms, names are designations of artificial persons, also known as corporations. In other words, your legal name is the corporate name used by the government to identify you. Because of this, it is NOT who you really are.

The evidence that names are designations of artificial persons or legal fictions can be found in the legal definition of the word name. Black's Law Dictionary (6th edition) defines the word name using these exact words: "The designation of an individual person, or of a firm or corporation." The word corporation is defined by the same law dictionary as, "An artificial person or legal entity created by or under the authority of the laws of a state." Based on the definitions in this paragraph, in law, a name is a designation of a corporation which is an artificial person.

## Did You Know the Government Is Also a Corporation?

Like your legal name, the government is also not "real" because it is a corporation. In the "United States", the U.S. government is actually a foreign corporation with respect to a state. [Click here](#) to see the evidence. Because the U.S. government is a corporation (artificial person), it is a fictitious entity that has no natural rights and power. Its main source of power comes from feeding on the energy of living men and women.

Most people have been tricked to think that the government is a living entity. There is NO government that is living in reality because there is no living man or woman who is the government itself. There are only men and women acting as agents of the government. Because the government is a corporation/artificial person, it cannot think, speak, see, touch, smell, or do anything that a living man or woman can do. As a result of that, the government can only operate in a fictional world that exists in our minds. To function in the real world, it needs a conduit or a liaison of some sort to connect it to the world of living and breathing people made of flesh and blood.

Because the government operates in a fictional world, it cannot deal directly with the real you (the living man or woman made of flesh and blood). To overcome this problem, it needs you to agree to be a conduit or a liaison, so it can connect you to a fictional character of the government. This conduit is the legal name (legal person/legal fiction) which is the name often written in all caps. This legal person is not you; instead, it is a fictitious entity used by the government to do business with you.

The moment you agree to be a legal person (legal name), you create a conduit that connects you to a legal person of the government, allowing the government to do business with you. It also allows the government

and the court to have jurisdiction over you. However, if you know the rules of the "game" and how to exercise your natural rights, you can take control of the game.

## How You Were Tricked to Agree to Be a Corporation

The process that allows the government to legally claim you as a corporation involves the creation of an artificial person (fictitious character), which is a legal name often written in all CAPITAL LETTERS, and then tricking you to agree to be that artificial person or legal name. This legal name was created shortly after you were born and was recorded on a bond. This bond that recorded the date of your person's birth is known as a birth certificate.

A birth certificate can be used as a certificate of debt which is why it is recorded on a bond. TheLawDictionary.org defines [bond](#) as, "A contract by specialty to pay a certain sum of money; being a deed or instrument under seal, by which the maker or obligor promises, and thereto binds himself, his heirs, executors, and administrators, to pay a designated sum of money to another; usually with a clause to the effect that upon performance of a certain condition (as to pay another and smaller sum) the obligation shall be void." This is why, when you agree to be a legal fiction, the government has the legal right to take money from you. Be aware that legal is not the same as lawful. The good news is that a birth certificate works like a stock certificate; therefore, by learning how to use it properly, you can become its beneficial owner.

## Why Your Legal Name Is Written in All Capital Letters

Your legal name, which is used by the government to identify you (a body of water or liquid), is written in all CAPITAL LETTERS because it is a piece of liquidated capital. In other words, it has been securitized and turned into a financial instrument. Hence, the phrase "liquidated capital".

To liquidate something is to sell it off entirely, or sell it to pay off a debt. It is called liquidated capital because you, the man or woman who has been securitized, were born in the womb of your mother which was mostly made of water (liquid). You are also mostly made of water. Because you are mostly made of water/liquid and have been securitized, you are considered liquidated capital.

The purpose of liquidating "you" is to turn you into "capital", so the government can sell your capital on the stock market to pay off its debt. When you split the word capital into three words, you get "cap it all." The word [capital](#) comes from the Latin word capitalis, which means "of the head," hence "capital, chief, first." It also comes from another Latin word caput, meaning "head" in English.

Dictionary.com defines the word [capital](#) using these exact words: "the wealth, whether in money or property, owned or employed in business by an individual, firm, corporation, etc." (Bold emphasis added) It is interesting to know that Webster's Complete Dictionary of the English Language (1886) defines the word capitalize using these exact words: "To convert into capital, as money or stock".

## Did You Know You Were Born with a Bounty on Your Head?

When you really think about the information you just read, you should know that the process of turning you into "capital" or "liquidated capital" is their way of saying that you have a "bounty on your head." Your birth certificate is a bond with your legal name written in all CAPITAL LETTERS inside its four corners and therefore is the financial document (capital) that has the value of the bounty on your head. This is why your birth certificate is used to issue bonds that are traded on the stock market.

In the Western world and many Eastern countries, shortly after babies are born, the government puts a bounty on their heads. This is due to the fact that all governments consider their citizens as capitals and properties. Even though you, as a citizen, are considered property of the corporate government, it has no jurisdiction over you as a living man or woman. However, if you agree to be a citizen ("person") of the corporate government, then it has jurisdiction over you. Why? Because by agreeing to be a citizen, you also agree to act in the capacity of an artificial person (fictitious character). As a result of that, you agree to live in

the realm of fiction, also known as the realm of the DEAD. Be aware that an artificial person has no natural rights.

In the United States, when you agree to act in the capacity of a U.S. citizen, the U.S. government sees you as an "employee" of the United States, a federal corporation. If you want evidence of this, look near line 15 in [Title 28 U.S. Code § 3002](#) and you should see this phrase ""United States" means— a Federal corporation." Why do you think the United States has a president and a vice president? All major corporations are required to have a president and a vice president. The United States, Inc. is no exception.

Because U.S. citizens are considered "employees" of the United States, like any employees of a corporation (e.g., Walmart), they have to follow the rules of the United States. Based on its rules, U.S. citizens have no natural rights, only privileges, just like employees of a corporation. The good news is that you can choose to not act in the capacity of an employee of the United States whenever you want to, as long as you know how to exercise your God-given rights (natural rights).

Please keep in mind that when I said the "United States" I was talking about the United States (Inc.) or the United States of America (Inc.), and not the country known as The United States of America (unincorporated). The United States (Inc.) resides in Washington D.C., a district that has a 10 mile radius and is controlled by agents working for the British monarchs and the pope. This district is not part of The United States of America (unincorporated). In other words, the United States (Inc.) is a foreign corporation with respect to a state, such as Minnesota or New York. The foreign agents of Washington D.C. are here to do government services for people living on the land of The United States of America (unincorporated), so people should respect them, as long as they are doing their duties properly and not violating the people's natural rights.

## Your Legal Name Is a Name of a Corporation

One of the ways to tell if a name on a government document (e.g., driver's license, social security card and birth certificate) is a corporate name of a legal fiction is to look for capital letters. If a name is written in all capital letters, nearly 99 percent of the time it is a corporate name of a legal fiction. It is important to know that even if a name is not written in all capital letters on a government document it could still represent a corporation. Most, if not all, government and financial documents are legal documents, and therefore the names on them are considered designations of corporations.

Another reason that a legal name is often written in all capital letters is because capital letters are more effective for creating magic spells! If you look at your birth certificate or driver's license, you should see your legal name written in all capital letters. Your birth certificate is not just a record of birth. It is also a legal document that has magic spells. This is why there are sigils (seals) on your birth certificate. Keep in mind that magic can be used for good or evil. Also, keep in mind that when your birth certificate is used wisely, it can be beneficial to you. To a significant degree, your birth certificate is a stock certificate. In other words, it is evidence of your beneficial interest in a corporation (e.g., United States (Inc.)).
