

Stopping Voter Fraud

Feet of a crowd and eye balls. If you want to know the truth of stopping voter fraud. That is what it takes. I know you feel very disappointed right now. You may have thought that some magic would happen. Done by others so you wouldn't have to lift a finger and voter fraud will just go away. No. Let me repeat that. No.

I would highly recommend that you gather some friends, put on your coat and go watch the people that handle the voting ballots. Bring a camera and a flash light with you. From a reasonable distance record everything and make your presents know. Record license plates of vehicles that transport ballots and ask for names of people that handle them.

Post your videos on line and make copies for others to hold on to. Share with local TV news. Even if you think nothing wrong happened.
