

Progressive Globalists are convinced that they can control this> ( % ), and your perception of it by upping the volume, omitting or tainting facts and by repetition. When that is not effective enough for their egos they impose more tax or Gov. oversight.

What's ( %)?

(% ) = The truth.

In an open and free Republic as ours certain truths happen. Millions of cars on the roads what % flat tires? % Accidents? % Injuries? % Fatalities? % A tree fell on a van? In any given day. No matter how minor or tragic, these truths will happen. And when placed next to the total Millions the true % is rather tiny. But our so called free press never dose it that way. No drama in that.

Gun violence, Global warming, Hate speech, or the amount of people harmed by watching Rudolph in stop motion animation. The main steam media drama queens have you convinced that everything they tell you is huge.

It's not. #FAKENEWS #MAGA #PROGRESSIVE #RUDOLPH
