## **ROME DOES NOT PAY TRAITORS**

Betrayal is one of the most disgusting and abject acts that a human being can commit, it is a flagrant attack against honor, loyalty and honesty, when someone uses lies and manipulation to achieve a personal objective to the detriment of those who have given his trust, he becomes a mean and despicable being, in the strictest sense of those words.

The government of a country, following orders from the international usurer mafia, with the complicity of the media and the medical-scientific community, has been a participant in one of the largest ecumenical scams perpetrated in recent times, with the aim of completely break the strategic sectors of this and other nations, to irreversibly convert them into enslaved states in perpetuity.

To do this, they have used the chaos generated by a false pandemic, decreed based on an alleged unidentified pathogen.

When a public institution acts against the people, to favor external interests, condemning its own country to financial disaster, social rupture and the absolute loss of its sovereignty, we can affirm, without fear of being wrong, that this institution would be committing a crime of high treason.

When the media of a country, following instructions from the political and health authorities, issue false, inaccurate and contaminated information, with the clear intention of sowing panic in order to justify mobility restrictions, curtailment of freedoms and police surveillance, we can ensure that those media would be complicit in a crime of high treason.

When the health community of that same

country actively collaborates to support this lie, falsifying data, omitting evidence and skipping its own code of ethics, we can also affirm that this group would be involved in a crime of high treason.

In my personal case, I do not feel hatred towards the actors and institutions that participate in this infamous plot, because that would be giving them a power and a value that they do not really possess, what I feel is the most absolute contempt, towards all of them and what they represent, with the complete certainty that they will pay for their crimes, sooner rather than later.

Politicians, journalists and doctors, apostles of corruption and deceit, have wanted to play with the big boys, under the orders of international organized crime, but it has gone wrong for them, their farce irretrievably crumbles, and they are going to fall the world above, so when they go to their "bosses" for help, do not be surprised if they receive the answer that "Rome does not pay traitors" because in the underworld, when plans go wrong, nobody knows anyone, and when that happens, and it will happen very soon, rest assured that we will be waiting for you on the other side of the board to hold you accountable for each of the crimes you have committed.

Hugs for all the rebels and disobedients on the planet, energy and Rock and Roll, head held high and face uncovered always!!!!
