

## How Do You Upset The Voting Cheats?

What you are about to read is one idea of many from The S2 Project think tank. We know many people who do not like solutions. Or the minor efforts usually associated with them. But without solutions, problems persist. You just can't stare at a flat tire and hope it fixes itself. It just does not work that way.

Given how the 2020 American election was conducted, the overwhelming evidence cheating accrued in local districts across the country. We offer this suggestion. With the idea that *the Fight is Local*.

Let me introduce you to a little secret. It's called **Strategy**. Something these 2 guys (Inset photo right) seem to be very good at. (Men "watch over" ballot drop box in Arizona. Was the news story. ) So here is another not in the news.

- 1\ Get all the names of the people who will work the polling station where you will vote.
- 2\ Make a list in three types. Hand written and with two widely different looking print fonts. Each type should have the listed names out of order of the one before.
- 3\ Each sheet on top should have the location of the voting place.
- 4\ At the bottom should be written, "Thank you for your service."
- 5\ Make photo copies of all three.
- 6\ Hand out one copy of each (3 sheets) to everyone you know. Asking for them to make copies and hand them out.
- 7\ When you get to the head of the line, leave one of the sheets on the registration table.

**So here is the method behind the madness on this idea-**

**Why (1) above?** Evil often lives in anonymity. The more anonymity people think they have the more they think they can get away with. #Anons with Q use this in reverse for good purposes of informing the public. So they are the exception regardless of what you think about the Q Movement.

**Why (2) above?** The three different types or appearance of the list runs to the conclusion that many people were involved. Or the idea of making the list is widely spread out in that voting district. Much more so than if every copy was exactly the same.

**Why (3) above?** We thought this would be obvious but it's a connection to knowing where you are voting. Not a last minute thing.

DID YOU KNOW THAT THESE ARE FOR RENT AND NOT JUST FOR BIG BOX STORE PARKING LOTS?

Another idea our think tank came up with. These cameras can be placed next to voting places on private property. If placed in a "legal" parking spot on the street, use traffic cones and a trailer coupler lock. Given that this comes with some cost. Teaming up with a bunch of other people is recommended. And some of them play recorded messages too. Use your imagination there. "Voter fraud is a crime", is a simple one. The video feed can be done as a web cam.

**Why (4) above?** It justifies the whole method up to leaving a list copy on the registration table. It's a "thank you note". It gives it a reason to exist. But at the same time points out that you know exactly who you are thanking. Not anonymous any more! WE KNOW WHO YOU ARE! And if you cheat us out of our vote this time we know who to come looking for. Although it's very subtle.

**Why (5) above?** We thought this would be obvious but we'd like to point out that as photo copies it reinforces number 2. And that bad but readable photo copies are better than clean quality ones from a psychological perspective.

Voting this time around, November 2022, is going to need all the help We, The People can give it. Every little bit helps.

**Why (6) above? In this case quantity makes quality.** One or two will be considered a nice gesture. Getting passed a dozen starts to make Cheaters sweat. We want more than that. Two or three dozen of these "thank you notes" to give the Cheaters second thought of following through on committing the fraud in the first place. **Stop the fraud is the goal.**

**Why (7) above?** This is the fun part. What you'll talk with friends over coffee after you vote. It's the execution of a plan. Friends that voted first will tell stories of smiles at that table. Those friends that voted later will have different stories.

Again, this is low key and subtle. A simple thank you note. Nothing that you put your name on. Applying your 1<sup>st</sup> Amendment right.

Thank you for reading. Please print and share, other true Americans in other voting districts need this information. Using this method **outside** of the USA should be used with discretion as free speech rights vary. Please use the rest of the space for your own notes.
