

International Public Notice: The Source of This Evil

It's a strange list of books that on the surface seem to have nothing much to do with our daily lives, but in fact, these resources tell the tale of how our country has been overtaken by guile and corruption, who (and what) is responsible for this outrage, and they suggest --- if only by logical extrapolation --- what to do about it.

The first insight involves the formation of a separate government in a separate jurisdiction of the law, by foreign, for-profit corporations; and, a still-functioning British Secret Society founded by Cecil Rhodes for the purpose of creating and expanding the colonial British Empire worldwide:

Carroll Quigley: The Anglo-American Establishment

Carroll Quigley: Tragedy and Hope

Gerry Docherty and Jim MacGregor: Hidden History - The Secret Origins of the First World War

The second important insight that Americans desperately need is an understanding of the source of the Overpopulation Myth and the evils of both the Committee of 300 and the Club of Rome:

Dr. John Coleman: The Story of the Committee of 300

Dr. John Coleman: The Rothschild Dynasty

Through these works you will finally understand where the evils of the present era have been born, nurtured, and foisted off on us --- by whom, for what reasons, and how.

The politicians were bought off by the Committee of 300 and, the Club of Rome, acting as a storefront for evil elements within the Committee of 300, put it all in motion specifically to destroy the middle class of this country and to promote an agenda of global genocide.

International Public Notice: The Source of This Evil

The primary requirement to restore sanity in this world is to: seize the ancestral wealth of the specific criminals responsible so that the more unsavory members of the Committee of 300 and Club of Rome are prevented from using payola and grants as a means to pursue these insane genocidal objectives.

Just how much payola to the employees of the NIH has recently been disclosed by OpenTheBooks.com --- they were individually motivated by no less than \$170 Million, while the sop to the institution topped over a billion dollars.

The second requirement is to arrest these criminals and throw away the key -- en masse. These heirs of the British East India Company and their Club of Rome pals all need to face charges for genocide, piracy, unlawful conversion, and more.

The third requirement is to expose everything they have done to destroy, steal, murder, maim, and control entire nations, usurp national governments, and corrupt every aspect of life on this planet.

We don't need the United Nations protecting the UN CORPORATION and WHO, nor do we need corrupt politicians operating a phony corporate government in a "territorial capacity".

We don't need False Narratives of any kind.

We have a complete picture of the Evil in our midst, where it came from, who promoted it, how they have funded it, and most important -- who they are.

May all their malice, greed, arrogance, uncaring, and criminality be reflected harmlessly away from their victims and may we all join in washing away the blood and misery that has been the legacy of the British East India Company, their heirs forming the Committee of 300, and their foot soldiers in the Club of Rome.
