

A Problem Revealed of the American Conservative.
(Opinion)
Chris Oldham
Founder & Commander of The S2 Project
10/31/2019

Approaching the first anniversary since I began the journey of The S2 Project. It's creation of concept, how to win this Geo-political war on America. Step one then step two and so on. A true way to win. In layman's terms. Nothing out side of common sense.

But one factor that I did not calculate correctly was the attitudes of my fellow Pro American Trump supporters. That the Silent Majority is that way for a reason. They're pacifist at heart. And in that is the national problem.

A truism from for ever and beyond is that 10% of the people do 90% of the work. Leaving 6.5 Million Conservative people. Meaning that 58.5 people claim the title of Patriot but will do nothing outside of voting to prove it. The Pacifist.

Knowing from shouting, attempts at educating or engaging and 20/20 hind sight experience over the past year that you can't make these 90% mad. Can't move them to take any action at all. They are who are doing more to destroy our Republic through their lack of action more so than the Globalist. I will even take it one step farther and say that as Americans, they are a disappointment. Why? Because they out number the Leftist & the Globalist Democrats. Who are very organized. Yet they let political opposition run rough shot over them 24/7 rather than take part in reversing the degradation of our country.

The very silent, let the other guy do it, majority. *Sunshine Patriots.

If you have read this far and are not angry with me yet. You should be. And just in case I missed the mark, give me one more shot. I would call them fools too.

For contrast a Patriot is on the phone calling people to donate or vote for a conservative candidate. Or knocking on doors for the same purpose. The man or woman standing up at town hall telling the City Council or School Board how they have strayed away from Americanism. Even if it's just fixing those damn pot holes. Volunteering their time to help our veterans or our homeless. The Parent home schooling their children. In other words they are active in some way to make their community better. One step beyond writing and mailing a check.

In most communities, the seats in City Hall public meeting are mostly empty. Coast to coast, month after month. The Leftist & Globalist know this. So the Sunshine Patriots, the 90%, scare them not at all. Why should they be afraid of sheep? If the sheep have no interest in pushing back. If the sheep have no interest in having their local law enforcement do their job when politicians break the law. Then it will be a rough shot ride the sheep will get. And will not see it coming. Because the sheep do not show up to even find out what was going on. Ignorance is bliss until it gets you or your children interned in a re-education camp and your property taken away.

Not going to happen? Maybe not this decade. But it has already been planned for the 2020's. The Leftist, Globalist, Democrats, Socialist, Communists, Jihadist & Satan loving Deep State are not going stop. They will get deferred at best. You insist that President Trump will save you. One third of our country doesn't give a rip. Nearly half of young adults believe in socialism today. Which is a combination of Conservative complacency and indoctrination instead of education by the Leftist success. Deferred I insist right back.

The "we need to's", "government should

do's" , and all the "other guy could do's" , have to become , "what I will do..."

At this point you should be thinking along the lines of, "Well, if the guy who wrote this is such a hot shot. What has he done?" And that would be a very fair question.

For starters I wrote a common sense manual bases on what works at the grass roots level. Used many paychecks, many thousands of dollars to create a secure web site for Trump supporters and Conservative organizations to use. A place for them to communicate with out big tech & the social media giants reading over their shoulders. A combination of 8chan and a Twitter room. And before that I was one of the people making a fuss at the school board meeting. One tour as a US Marine enlisted.

I hold no hope for the Democrat voters. But **The S2 Project is a opportunity for the 90% to try to get back to being real American Citizens. By standing up, united, and making their voices count more than just one vote. The deferment can be turned into a reversal. Providing we True Patriots can double our 10% somehow out of the 90%. That the threat of the 3% will stand behind us.

There are two clocks ticking down. One ticks down on the heads of the known black hats. Justice and doom for their crimes is just over the horizon. The other on the white hats. As I said before, the one who seek to destroy America will never stop. And the clock will continue to run as long as those you don't give a rip let it tick.

**The S2 Project is a grass roots civil action group heavily relying on the team concept to multiply results. Focus is on the State politics in all 50 states and on the city/town level. Watchdog is another name for this type of activity. Patriot Headquarters is a section within the web site and is the communications platform used by registered members and members of organizations who have registered and is not visible to the general public.

*Sunshine Patriot refers to individuals who claim to fight against tyranny on the side of freedom, yet are unable to stick it out when the going gets tough or unfavorable. The term was first made by Thomas Paine during the American Revolution. These individuals will "shrink from the service of their country" when conditions are bad or uncomfortable for them. It is a term meant to shame those who are false-patriots who claim to be patriots, but will not give 100% effort when their moment of truth arrives.

To join the movement and be part of the greatest investigation ever assembled by American Citizens, go to thes2project.com. Click on Register and fill out the form. Phone # format is with the dashes, (111-222-3333). Inquires can be made from the contact us/ mail room page.
