

Open letter from The S2 Project Command Desk to all retired Judge Advocate General Officers of the US Armed Services.

Subject; Getting the public's money back.

Objective; \$1.8 Trillion (initial) prior to discovery.

(Read more)

It has been by over one year of observation the the civilian population, those who have never been in the US Military, are unprepared to move forward as a majority to advance liberty in the intent of the American founding Fathers.

Proposed;

1. In the anticipated unsealing of indictments now listed on the web site, <https://qmap.pub/> , where assets are not under government seizure, to bring suit, under law to recover all assets, gains, and funds from public officials who used public money and their influence of position to profit. Who are named in said indictments.
2. Where assets are not under government seizure, to bring suit, under law to recover all assets, gains, and funds from public officials who used public money and their influence of position to profit. Who by repetition, has proven to be a poor decision maker on behalf of the public they represent.
3. To be relentless in recovering funds by bringing suit, above professional liability insurance limits where proven, public funds where use to pay premiums on such insurance policies.

I implore all JAG (retired) officers and former staff to join this effort and consider the timing in which this may come into fruition. At such time, we may be back on some form of the gold standard if rumors and predictions hold out. Whereby real money as apposed to the petrol chemical currency of the Federal Reserve will be collected. With a target of \$1.8 Trillion (initial) total, those participants actively seeking to recover public funds should find ample commissions for their efforts. In addition, to point out that the American Patriots, grass roots watchdogs, and fighters for liberty number one challenge is being under funded is a gross under statement. Battling Leftist organizations with Socialist billionaire funding as the are. Infusing these groups with capital while removing bits and pieces of the Anti-America establishment will go a long way to returning America to its roots as a republic.

C Oldham,  
Founder & Commander
