

Commander's Notebook 4/30/2020

The amount of evil being perpetrated on Americans is staggering! Twice as bad around the world in most other countries. Even the very awake & informed can't wrap their heads around the whole data farm of information.

This is why every swinging Dick and Jane has to be in this fight. Screw what you think is normal. Get in the fight. What you think is normal is not what is really going on. Get in the fight.

Keep it local, because the evil is sneaking by us on every level. Get in the fight. Keep it local, because they stopped listening to you in Washington, DC. Get in the fight. Keep it local, because community is an extension of family. Get in the fight.

God & family first but, get in the fight. We have sheep problem. And the only way solve that problem is to help you not be one of the sheep. Get in the fight. The Globalist have set up ways to take your children away from you. That means their practically next door to you. Get in the fight.

Right & wrong doesn't matter to these people. These people do not care what your feeling are. Get in the fight. They care NOT for your religion, your race or your political party. Only power and control of you as a commodity. Get in the fight.

Ignorance is not a weapon you can use protect to yourself with. Learn new skills. Gain new knowledge. Your first day on a new job you didn't even know where the bathroom was. But you plowed forward and got better at what you do. Got comfortable with your surroundings. Get in the fight.

The AWAKE & AWARE started the same way. They had their day one. Get in the fight. Because you can only learn to win it, if your it. Get in the fight. This is our home. There is no where to retreat to! Get in the fight.
