If an army can not or will not march to the battlefield, it can not win.

Trump supporters who will not volunteer somewhere can not say, they, are on the winning team.

There is enough cardboard cutouts at baseball games. We do not need the same when the survival of American liberty & freedom are at stake.

Just like in business, you build from the bottom up. In this case it's swamp draining and weed cutting. There has to be a united grassroots effort to kill the weeds at the roots in every hometown. While Trump and the federal Government weed wack off the heads and drains the swamp in DC. Only when the two trains meet in the middle and drive the last spike will we have our country back.
